

E-Learning Platform

Aim :

To design and develop a user-friendly E-Learning platform that provides an interactive and engaging experience for learners of all ages, enabling easy access to quality educational resources and tools, anytime and anywhere.

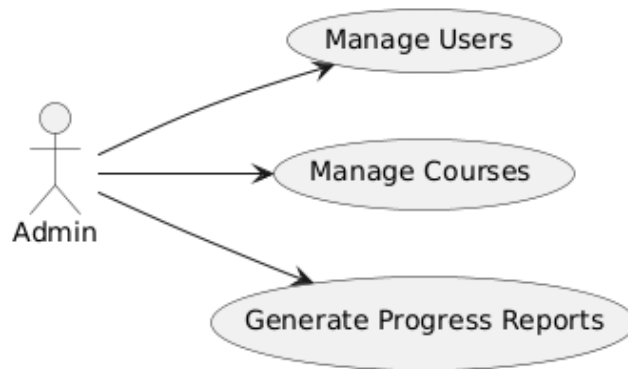

Objective:

Interactive Learning Experience - Implement features such as video tutorials, quizzes, Assignments documents & sessions to enhance engagement and participation.

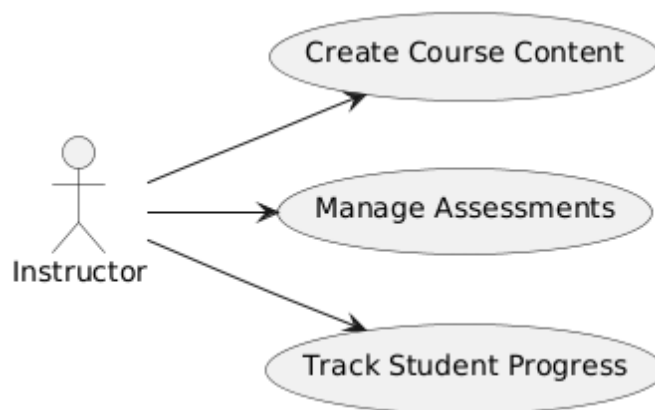

Scope of the Project:

1. Develop a user-friendly E-Learning platform suitable for learners of all ages.
2. Provide easy access to educational resources like video tutorials, quizzes, and assignment documents.
3. Include interactive features to make learning engaging and fun.
4. Ensure that learners can use the platform anytime and from anywhere.
5. Create tools to track progress and support learning at a comfortable pace.
6. Focus on simple and intuitive navigation for all users.
7. Ensure the platform is accessible on multiple devices like phones, tablets, and computers.
